

FABER SOAP

Concentrated cleaner with water-repellent and protective features, specific to clean polished natural stone floors.

FABER SOAP is an innovative concentrated cleaner specific to be used to clean polished natural stone floors, like marble or granite. The product combines in one solution the effective cleaning action with the water-repellent protection, increasing at the same time the sheen of the surface: **FABER SOAP** cleans, protects the surface from water absorption and increases the sheen of natural stone floors.

FABER SOAP is the ideal solution for the final cleaning of the natural stone floors that have been mechanically or chemically honed and polished, but it could be used with good results even for the daily and ordinary maintenance of every kind of polished natural stone floor, thank to its effectiveness against ordinary dirt and its sheen-increasing action. Moreover, **FABER SOAP** gives to the treated surface good water-repellent features that protect the surface from water absorption

If used on regular basis, **FABER SOAP** makes the ordinary cleaning operation easier, faster and more effective, maintaining over time the beauty and the sheen of the surface, even on the most sensitive materials like marble or travertine. If used according to the suggested dilution ratios, **FABER SOAP** does not require rinse.

FEATURES AND KEY BENEFITS

- ✓ **Ideal solution for cleaning after honing/polishing operations**
- ✓ **Gives water-repellent features**
- ✓ **Increases the sheen of the surface**
- ✓ **Good cleaning power**
- ✓ **Neutral pH:** suitable for sensitive materials like marble, limestone or travertine
- ✓ **Does not require rinse**
- ✓ **Leaves a pleasant scent**
- ✓ **Does not damage the treated material**

APPLICATION FIELD

Product suitable for **indoor** or **outdoor** applications
Specific product for **polished superficial finishes**

Product **suitable** to be applied on: Marble-cement agglomerate, Marble-resin agglomerate, Quartz-resin agglomerate, Granite, Polished porcelain tile, Limestone, Marble, Travertine, Concrete

CONSUMPTION

900-1100 m²/l

APPLICATION TOOLS

Mechanical Application: single disc machine equipped with white pad
Manual Application: Mop and micro-fiber cloth

Cleaners

FABER SOAP Concentrated cleaners with water-repellent and protective features, specific to clean polished natural stone floors.

APPLICATION

MANUAL Application

Dilute the product pouring 2 or 3 caps of product in 5 liters of water and clean the surface. Wring well the mop and clean the surface, treating each sector in an omogeneous way. Wait for the floor to be completely dry and, if needed, remove the dusty residues visible on counter-lights by using a dry and clean micro-fiber cloth.

SINGLE-DISC MACHINE Application

Dilute the product pouring 2 or 3 caps of products in 5 liters of water. The dilution could be done directly in the single-disc machine water tanks or in another container, then clean the surface treating each sector in an omogeneous way. We suggest to wash each sector for about 10-15 seconds. It is important to not let the product dry during the washing. At the end of washing operations, remove the residues by using a wet-vacuum. If the products dry on the surface before the removal, brush the area with a clean and dry white pad.

INSTRUCTIONS AND GUIDELINES

- The product can be applied without any particular guidelines

TOOLS CLEANING

A At the end of application, the equipment used can be cleaned using clean water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

PHYSICAL-TECHNICAL DATAS

Aspect:	Viscous liquid
Colour:	Amber
Odour:	citrus fruits
pH:	10,0 ± 0,5
Specific Gravity (20°C)	1002 ± 10 g/l

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

PACKAGING

- 1 liter bottle – 12 bottles per box
- 5 liter bottle – 4 bottles per box
