

Stain Removers

EXTRACTOR

Stain extractor powder to remove colored stains, humidity stains and watermarks, smog, tannin and other particular stains from any surface

EXTRACTOR is a stain-cleaner in powder to mix with water before use. The product was developed to extract colored stains and dampness stains from any type of support, even vertical surfaces.

The product, thanks to its special formulation, is very effective against any type of stain, though very delicate on surfaces, even the most sensitive, such as the polished marbles. **EXTRACTOR** is characterized by an effective and fast stain-cleaning capacity and its use is extremely easy.

Mixed in the right proportions, **EXTRACTOR** has a dense texture allowing a better performance against the staining agents. Use does not affect the final look of material.

CHARACTERISTICS AND BENEFITS

- ✓ Excellent stain-cleaner for colored stains
- ✓ Cleans dampness stains
- ✓ Better contact between the stain-cleaner and the staining agents
- ✓ Suitable for vertical application.

USES

For indoor and outdoor use. Suitable for any surface.

COVERAGE

N.A.

APPLICATION EQUIPMENT

Direct application upon the stain.

APPLICATION STEPS

Test on a small area before proceeding, so to ensure product suitability and final result.

The product has to be mixed in warm water 40-50°C before use.

Mix 1 part of **EXTRACTOR** with 1,5 parts of HYDROGEN PEROXIDE at 8% or, as an alternative, with the same quantity of warm water, mixing until an homogeneous compound has been obtained.

Apply an appropriate product quantity with a spatula to the stained area, leaving a generous layer of product on it. Allow the compound to act on the surface FROM 1 TO 3 HOURS and check now and then if the stain has been removed, by rinsing well with clean water.

There is not a precise interval of time to recommend, as it could take just a few minutes or several contact hours, even one night, to remove the stain.

Once the product is removed, wait until the surface will be dry to check the obtained result. If the stain still persists on the dry surface, but less intense, repeat application.

Stain Removers

EXTRACTOR Stain extractor powder to remove colored stains, humidity stains and watermarks, smog, tannin and other particular stains from any surface

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Powder
Color:	Beige
Odour	Odourless
pH:	NA
Specific Gravity:	432 ± 10 g/Lt.

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

PACKAGING

- 1,2 kg buckets – 4 per carton

HAZARD IDENTIFICATION

Product not subject to safety classification according to the existing current regulation

Version 2.0 – 16/01/2017
